Community and Employer Partnerships

Canada

This program is funded by the Government of Canada and the Province of British Columbia

Helping British Columbians Find and Keep Jobs

www.WorkBC.ca/CEP

Communities

The Community and Employer Partnerships fund supports opportunities and community-based initiatives to help individuals and the broader community.

With the help of this fund, communities see:

- job creation
- positive social impacts
- economic growth
- more employment opportunities for unemployed British Columbians

Projects:

- are community driven
- increase local employment and work experience opportunities
- help reduce poverty while strengthening the labour market throughout B.C.
- support communities through economic change by connecting employers with employees

What We Fund

How can funding benefit you?

As an organization, funding can be provided for project specific costs such as:

- wages
- professional fees
- materials and supplies
- administration costs
- capital assets

Project participants wages and/or training expenses are covered by WorkBC.

Project participants can receive supports such as:

- training
- living supports
- dependent care
- transportation
- disability supports
